Skills Summary

- **Languages**:   C++, Python, SQL, HTML , CSS and JavaScript
- **Frameworks:** Bootstrap, Angular, Ionic, Express
- **Tools/Platforms**: Mongo DB, VS code
- **Soft Skills**:   Leadership, Problem-Solving Skills, Team Player, Communication, Project Management, Adaptability

Projects

- **Workwise**   Apr'25
  Created a Job seeking portal in which we can search companies, apply in them with resumes and do other stuff also.
  We can also log in to view details of the people who applied in that portal and all details are stored in Mongo DB.
  Developed a comprehensive program using Html, CSS, Java Script , Bootstrap, Node JS and Express.

- **PG life Website**   Apr'24
  The PG Life website is a full-stack web application with features such as a search bar to find PGs in specific cities, a PG list page with filters for rent and rating, and a PG details page with images and information on amenities. Users can mark PGs as "interested" and view them on a personal dashboard after logging in.
  Developed a comprehensive program using HTML, CSS, Bootstrap 5, JavaScript, PHP, and MySQL.

- **Disk Cleanup Automation Project**   Nov'24
  Aimed to build an automation solution for monitoring the disk usage of system and then move the data if needed.
  Gained knowledge about Ui Path Studio and learnt to use it widely in various automation projects.
  Developed the same project in more than one way successfully as a part of the minor Capstone Project.

Achievements

- **Runner up in Inter Hostel Debate competition.**
- **Speak Bold 3rd Position Competition on current Affairs.**
- **Secured 3rd Position in Inter School sports competition in university.**
